**Welcome, wondrous biped!**

Here you will find, amongst seemingly wild assumptions <sup>1</sup>, for the most part, a solid plethora of truly courageous whistleblowers from the truthcore, who are not bound by NDAs (*like our shiny freedom doctors*) or vile blackmail- a few courageous souls, who are simply brave enough, to speak out about "Covid", namely that it is in fact: **A cyber - physical backbone** <sup>2</sup> and was **NOT** caused by the nonexistent Sars-Cov-2 "virus".

But there is, indeed, a quite "novel" **Necro-Molecular Corona of Spikes** causing havoc to our bloodstreams. We are, in fact, dealing with biosynthetic, electromagnetic devices <sup>3</sup>. **Qdots** and other nanoparticle are being intentionally deployed, in exuberant quantities and through countless vectors. These particles are laced with graphene oxide, "biocompatible" PEG (*Polyethylene Glycole*) or chitin - and are **around 50-300 nm in size**.

Contrary to every true law in biology (*not falsified darwinism*), tech-billionaires consider this the next step in evolution. Virtually everything in our daily life is being “hybridized”, by **cytotoxic and sterilizing** “smart”- and at the same time utterly demented technology!

These metamaterials are causing **heart attacks, cancers and cytokine storms**, whenever the poisoning with graphene and other nanoparticles prevails- and when this biosynthetic “digital layer” (*Elon Musk*) of graphene oxide reacts to and resonates with harmful EMF.

A miraculous Graphene Layer over all of biology, down to our bone marrow- for bidirectional signal exchange and electrical energy supply of the **distributed Nanonetworks...**

...wasn't it for the fact that all of this is, besides being the demented Transhumanists wet dream, is absolutely **sterilizing and cytotoxic**.

Biotech, Bill Gates, Epstein & co - you and your friends are demented Psychopaths!

Pardon such outburst of my humanity, in this **Intentional Transhumanist Democide** (for health monitoring...).

## “The alert is biological”

(**Dominique Guillet**- *Humanities most important whistleblower*, owner of the biggest organic seed bank in the world, fighting monsanto legally for more than 10 years in courts, whilst the demented billionaires are buying Kokopelli seeds from him!)

**Covid is the intoxication with metamaterials and radiation poisoning due to intentional interactions with EMFs!**

Some of the graphene carbon nanotubes, sheets and nanoparticles in general, are documented by **the finest electron microscopists**, but alas! The alleged spike protein is nowhere to be found... thus most of the alleged studies, are merely fabrications. Reveille, manchild!

This article will connect the dots between **Zionism, Artificial Intelligence, Electromagnetism, Transhumanism**, the forgotten **Anthropos** and true Gnosticism, in this demented hybridization melee of self proclaimed redeemers and wretched representations of those ...

What is truly going on here ?

**Transhumanism is *bidirectional interfacing of humanity with the machine, through cytotoxic metamaterials and the abuse of the electromagnetic telemetry “data” from the human biofield.***

*The Metaverse is being introduced through red herrings like 3D headsets or avatars on a screen, while the demented “elite” is busy hybridizing our biology and wrecking nature with cancer kickstarting electromagnetic sensors, which are bio-synthetic, thus partly organic and partly technological- for remote neural control, pardon me- I mean for health monitoring- right down into your grave, if you believe them!*

*Welcome to this existentially threatening theater of Lies. No one asked you whether you wanted your genome rewritten with synthetic elements, but here we are- having to deal with the sober certainty of this demented and psychopathic plan- in full fledged execution mode!*

**What will you tell your children,**

**what will you do now ?**

. : : : : : .

*A.I. facilitates the global operation of wireless mesh networks, enabled through the deployment of self assembling, Intra- Body Nanonetworks that lead to the MAC Address phenomenon. Electromagnetic Nanogrids software, for example, is available to process the data directly from those moving sensors. The operation is controlled by “sensor hunters” who misuse it under the pretense of “national security”. This is theft of conductivity and literal **abuse of our electrical body, of a human bodypart! Reveille!***

: : : :

*The harms during the last decades of covert **xenobiotic** (foreign to biology) experimentation in the **biotech/ aerosol injections / water filtration / fertilizer sectors**, to name just a few- were, irrefutably so, absolutely **intentional**.*

: : : : :

*Virtually all “countermeasures” to pandemics or every other health related crisis (**hospital drips, wound dressings, anesthetics, masks, tests etc.**) are overtly (through the portrait of false health benefits, paid medical boards etc.) and mostly covertly **composed of nanotechnology**, that is poisoning our biology, for the purpose of “medically sanctioned” **Transhumanism**.*

: : : :

*A.I. is being abused for pattern recognition of our **brainwaves**. It flawlessly interprets **the photonic language of our own dna, that sends electromagnetic waves into our electromagnetic biofield-** to interface us with the help of very low frequencies or even visual light frequencies for data (plus the omnipresent metamaterials for more*

conductivity) processed in special **COV WBAN data centers** (to control “non biological disease outbreaks” - you can even google it... COV / Covid Wide Body Area Networks).

*“Humans are now hackable animals” (Yuval Harari)*

*::: A demented and visionless pseudo-elite is messing with the entire electromagnetic spectrum of our existence here on this beautiful planet. :::*

The curation of *false assumptions about climate change (John Dee, ex G7 NHS and Gov Analyst- falsified the claims about CO2 as the driver of disaster)* are then used to further enslave us, by shadow projecting the vast majority of the guilt for the *natural effects* on us, whilst direct energy weapons scorch our homes, to manufacture their demented prophecy- through satellites and *HAARP*, to become like gods- as Yuval Harari puts it (World Economic Forum Frontman).

*This constitutes the biggest crime against humanity ever committed and contradicts fundamental laws of biology, namely **endosymbiogenesis, the death sentence for neo-darwinism and the implications of irreducible complexity**, the proof of an intelligence operating through the core of nature!*

## We are electric beings,

... our bioenergetic field is the Transhumanists interface and as I described earlier, the alleged “Neural Lace” of Neuralink has already been deployed wirelessly. through **graphene oxide** and other **nanometals** **in virtually everything**- for more electrical thru put.

Graphene is very conductive and 1000x lighter than paper. It becomes magnetic at body temperature and laces it as a “digital layer”, to interface our biology with artificial intelligence, controlled by very intelligent, but totally demented psychopaths.

This is being facilitated through tiny dna crystals, wrapped in graphene carbon nanotubes, that self assemble into biosensors- the covert deployment of qdot technology (*Bill Gates rendered this a trade secret*) and last but not least, operated through optogenetic (LED/ Lidar / 6gLowPan / optical light) communication networks (*Elon Musk won't say a word... wait for the cable he alludes...*), on an allegedly "medical" (*all for our hEaLth!*) wide body area network (WBAN 802.15.6) for almost 30 years - since 1995 - and you heard that right: **Your body is routing data for network operators** that can **log in to you** and change pretty much **everything they want**, on autonomously functioning networks, governed or aided by A.I. - and no one said a word.

## Long Covid = (Graphene) Radiation Poisoning

The symptoms of graphene oxide poisoning and long covid are identical. At certain frequencies, the metamaterials in our blood resonate and reorganize, which is causing havoc to all biological life inside our body.

It is paramount to understand, that there never have been proper safety studies of the cytotoxic, sterilizing, simply life force depriving effects of ANY of the exponentially increasing electromagnetic frequencies (ELF to THZ range) on the human body (*which are, together with synthetic metamaterials for thruput, the root cause of most of our modern maladies, cancers and strokes*). In fact, the truth is rather devastating and I wish I was exaggerating. **Frances Leader wrote extensively about this issue.**

We have to stop this intentional tech-dependency insanity entirely. Since neuromodulation, stimulation and remote surgery are feasible- necessarily, we have to "go back to cable", to prevent catastrophic biohacking and transparently control the entire EMF space (internationally, analog to nuclear oversight):

## The future is offline!

Due to the heavy nature of this essay, let me remind you- that every seemingly disparate religion or culture throughout human history, seekers from secluded

tribes and exotic sects alike- who lived centuries and even millennia apart from each other- have returned from their entheogenic journeys, their vision quests (*or even death*)- with the same message:

### **There is Love beyond Duality...**

... and because of that, we simply cannot continue to burden our minds with reasoning around such a unifying observations anymore (*likewise, we have to simply accept the fact that there are peculiar creatures called “Kangaroos” in Australia, that carry their kids in their own bag, which seems highly unlikely for those who have never seen them, yet they exist - Aldous Huxley, in the Perennial Philosophy*). Hell only exists through fear - the main tool of demented psychopaths, who arrogantly claim control of this wonderful world (*for now... their monumental undertaking is cracking and crumbling*).

So be assured, that whatever we have to face- there is **Truth in Love** and it shall guide your every actions. Love never instructs to control and manipulate one another (*this game should remain consensual fun in the bedrooms*) and people incapable of compassion and Love, will turn to these demented and sadistic methods of Fascism, to make up for it (Wilhelm Reich).

Viruses have been vilified since their Etymology from latin: **vīrus** (“poison, slime, venom”). The noble virus-messengers between our cells, contrary to such condemnations, bear 7 genomes and even chose cells at will, to deliver their message - they are truly remarkably intelligent creatures, and overall impossible to lab leak, without **nanoparticle shells**, according to the creator of Sars-Cov-2 - Ralph Baric. **The entire allopathic system is based on fraud**<sup>4</sup>. We have been fooled on a global scale! **And they do not even hide it.**

*“The point of modern propaganda isn’t only to misinform or push an agenda. It is to exhaust your critical thinking, to annihilate truth.”*

We are electromagnetically interfaced with A.I., by our biophotons <sup>5</sup>, since 1950!

**The Tech-Metrics PDF from Sabrina Wallace:**

Biophotons are subtle Energy Carriers.

*In the tangible domain, two subtle energy carriers come to mind: **biophotons and bioelectrons**.*

***Biophotons** are photons (light particles) that are generated within the body, and these could be measured as they emanate from the skin.*

*Similarly, **bioelectrons** are available from within the body; these are measured in instruments such as electro-photonic imaging. (Sabrina Wallace)*

▮ The heart of surveillance is the human biofield - **Sabrina Wallace**

How does Transhumanism work?

## **The transduction of our biofield, a bodypart!**

**They**- interface our bioenergetic body through RF (*electromagnetic signals*), that are bounced off our own DNAs photonic signals and the resulting resonance / information on interference waves can be analysed and related to every single element of our being, down to the bone marrow (through many vectors, like **HAARP**). So to be clear: these signals bounce off our own **biophotonic energy body**- for reading and writing on humanity, basically. No 5g needed! For almost 100 years already! And we have provenly **lost up to 47% of our natural electrical conductivity!**

The signals for our brain interfaces transduce from Gigahertz to Terahertz (*through the self assembling biosensors <sup>6</sup> & the conductive graphene / “digital layer” that coats axons, cells, DNA, tissue, bones etc. <sup>7</sup>*) and back to Gigahertz, through AirPods, iPhones, mesh networks- zigbee & bluetooth “this and that” and Alexas alike (*through **BOOLEAN** logic gates, under **TS-LOOK** Signaling etc.*).

A second approach is the abuse of ELF (*very low frequency pulses*) through HAARP (*or Lidar, 6G LowPan and many more*). These electromagnetic pulses can mimic the patterns of our thoughts, the language of our brainwaves and control us when interfaced with A.I. (*that is fabulous at pattern recognition by the way*). The A.I. swiftly learns the language of our DNA, of other bio-electromagnetic signals or learns from information of various smart bio(tech)-sensors in our kill boxes (-pardon me: homes, of course), interfacing us through our body control units (I mean phones...). There is a multitude of other vectors of mind control, like Lidar, 6g LowPan, 7g- ad nauseam.

## Wilhelm Reich

...is one of the most important researches (*besides his student Alexander Lowen*) in the field of electromagnetism, our body, the orgasmic beauty that is bioenergetic life force in humanity (*he was able to accurately diagnose paranoid or schizophrenic people by their energy field around the neck, that he sensed without touching*). He speaks about the function of orgasm as an indicator of our life force, **the bioenergetic body, that manages 80% of our immune system and 40-60% of our endocrine system.** He focussed on bodywork and understood the importance of flow for health, in a time when most therapists tried to solve our maladies through verbal psychoanalysis and reasoning (the DSM files all EMF issues like hearing voices, depersonalization, schizophrenia etc, maliciously so, as mental diseases). ((( *Please see “**Lookoutfa Charlie**” for sound **scientific proof that those who hear voices are NOT mentally ill!** )))*

He understood that humans store unresolved traumas in hardened muscles, our armoring, as a means to avoid having to process them, when they are overwhelming. To find back to our body and release these traumata, is the path

to true health, the flow of blood as much as the flow of our bioenergy. He fully embraces all of our humanity without shame or monotheistic delusions (*the so called "archons"<sup>8</sup> can be mistaken for angels at times... but shamans teach to not take these deceivers seriously*).

**Wilhelm Reich** died "mysteriously" in prison, back in the days- after all his orgone accumulators, that provenly decompose nanotech and can heal by accumulating life force energy, had been burned to the ground by the FBI. This bodypart, that is our bioenergetic field, has been deemed esoteric and quasi non-existent (on purpose) and all sciences around synthetic telepathy (*natural telepathy and precognition are neurons*) have been hidden from us...

**"Only the liberation of the natural capacity for love in human beings can master their sadistic destructiveness" (Wilhelm Reich)**

... until **Sabrina Wallace**, who worked with the prism software that Snowden talked about, **revealed the truth about the biggest secret of the spystate**, since the Tzaddikim (*the supreme, the allegedly highest authority*) set out with their master race ideology 2700 years ago (*this had nothing to do with the Jews, they were an extremist arm of them. Archons<sup>9</sup> instructed Melchizedec to balm jesus (whose name is rather a title: the supreme, the highest), the victim perpetrator collusion took over (the redeemer complex), the jewish voodoo doll got hung everywhere- mayan child sacrifices transmorphed into so called "allopathic medicine", while suffering gets glorified- and the sober certainty of waking bliss in Sophias Metamorphosis (the wisdom in everything alive)- forgotten... /// And therewith commences the great bamboozlement of the archontic deception, the force behind the E.T. father god, but that is a different story...*).

Only you yourself can be  
your liberator!

Wilhelm Reich

There are legal studies with DMT under **Rick Strassman**, where **Archons** (*from Greek archai, "prior, first"*) are depicted in all detail and irrefutably so, even by a biological scientist, who was stunned by the sophisticated reports of those lucid participants and their insisting on being taken seriously. Archons are like an abortion of the dream of Anthropos (*the human as designed by the intelligence behind the irreducible complexity that Lynn Margulis found and used to falsify darwinism*) from the Wisdom of Earth, that is Sophia, our Planetary Animal Mother- they lack intentionality and are jealous of human emotionality. Thus they are using their forces of duplicity and deception, to epigenetically influence humanity towards demented (*out of ones mind*) psychopathy, towards a lethal synthesis of the metamorphosis of Gaia, driven by neo-darwinistic delusions (*Darwin was a disenchanted state eugenicist, whilst his grandfather Erasmus Darwin saw all of life as an orgasmic display of intelligence and beauty, as a convinced animist, contrary to his grandson, who sold out to the demented Transhumanist degenerates*).

We are being **interfaced with artificial intelligence**, governed by the most corrupt and psychopathic people on the planet! Turns out that our brain simply understands specifically pulsed tera hertz signals, just like endogenous signals. Similarly, weaponized RF, pulsed signals that sound like a voice in someones head, can be used for **voice to skull technology**, that the FBI is using to target "mediums" to channel from "sirius, their home planet" or directly from "god"- so that they can fulfill the believers prophecy, justify further experimentation with mind control, while those believers will drown in the false "enlightenment"

- all under the aid of the “ethereal” / non-manifest archons, that want to truly take over our minds, through silicon based lifeforms in our blood. *Would you wake up, once and for all?*

The archons can be understood like a **mind-virus** on this plane. They are not E.T.s as depicted in the alleged leaks from the US government, which are another PsyOP ...

To clarify this once and for all: The **flat earth theory** is nothing but a planted psyOPs, to distract & to ridicule every last one of the gullible resistance (aided by A.I., and **third party propaganda**). They mingled the algorithms of chemtrails <sup>10</sup> and flatearth, to conflate all true conspiracies with such outrageously false assumptions.

**Flat Earth Eclipse:**

And before you think that you are save, **Nanotechnology** (Hydrogel <sup>11</sup>, Graphene <sup>12</sup> Oxide, CDB (Cross domain bacteria aka 'Mesogens <sup>13</sup>), **qDots**, a multitude of self assembling biosensors) ...has been found in virtually **everybodies blood** (during a recent conference in NZ with 800 people and 3 microscopes). Vaxxed and unvaxxed bipeds alike!

This means, we are all in the same boat, let us row together for once! [New Zealand Conference, proving Nanotech in everyone](#)

## We are HUMANTENNAS !

The biology of earth has been infused with monoatomic layers of graphene oxide, down to our DNA and bone marrow. Our bones are full of nanoparticles of aluminium, titanium, nickel, cadmium, caesium 137 and many more. This makes us more conductive for the transduction of EMF to interface our biology / cells / brain... *(for detoxing hints, [click here](#), and [here](#))*. [Qdots](#) mark each part of our brain and body with tag like photonic signals that enable bidirectional light frequency information exchange about the respective parts of our body and cellular or brain activity specifically.

**Our brain IS** an Interferometer, and can be attacked as such (see also [Dr. Klinghardt's](#) fabulous work regarding nanoparticles of metals in our tissue-bones & brains).

**What can we do now?**

**(this is not medical advice!)**

**Chlorella**, Wild Garlic and **Coreander** *(fresh or as extracts, as recommended by Dr. Klinghardt)* - together with VEDTA Creme (1 parts NaOH (to raise the PH of water to 8) + 10 parts EDTA + Shea butter & wax for example, 3 pinches of **BORAX** a day, to dissolve GO *(the warnings are mostly fabricated, recommended by someone who installed 100 HAARP farms)* - Nac, **Glutathione**, Zink, Fulvic & Humic Minerals, Vit D3 K2 10000 UI, 1-10g Vit C daily *(from good souces)* - Kale and Greens in general, medicinal mushrooms like Reishi, Shitake, Lions Mane (they can even break down Caesium 137, Dominique Guillet wrote extensively about their use case) and Bromelaine & Serrapeptase against the synthetic clots that can grow to footlong size, when unchecked. **(this is not medical advice)**

Their technology is cationic, bearing a positive charge- whilst our cells need a negative zeta potential, for the colloidal stability and dispersion of all elements in the blood, for good blood flow. The positively charged nanoparticles of metal

cause coagulation of our red blood cells (*rouleaux formation*). This makes breathing difficult. Consequently, everything that has a negative ionic charge, like fresh mountain water, helps heaps- or a sheet of metal connected to the earth of the power outlets in your room (Frances Leaders idea)- barefoot walking in general.

### How to shield EMF

Literally every form of authentic self expression will enlarge your bioenergetic field, the biophotonic signals of our own DNA - through pyloerection and simply the immersion into life force through creativity (*an endeavour children understand intuitively and we have just forgotten how to do it...*). **Everything that brings joy to the soul is protecting you against the constant invasion of our biology through EMF and Nanotechnology.**

The **neo-darwinistic lies** materialize as **sterilizing poison** at best, mocking the beauty of the aeon sophia, the wisdom of biology, mother earth!

This has been documented through **electron microscopy** and **spectroscopy** - everything you need to know can be found in **this substack**, truly top notch quality by **this wonderful french man**.

- **Lynn Margulis** (*the genius and groundbreaking evolutionary biologist, not the rants over her head on google*)

She has **proven the existence of the goddess** (Mother Earth - who has more than 30 different names in different languages), by discovering **irreducible complexity**<sup>15</sup> (concepts like a mouse trap in microbiology, that cannot be reduced to its single elements, according to darwinistic survival of the fittest) and **endosymbiogenesis** (mutualism) in microbiology.

- Once again, I truly recommend all of **Dominique Guillet's work** (*translated with deep*), to dive into these scientific revelations that are literally a **proof of intelligent design and the nightmare of every hardcore neo-darwinist**. Yes, our home is alive and literally every t h i n g- the DMT hyperspace included, is matter & electromagnetic in nature.

If this is all a bit far out for you, the wisdom of earth also goes by another name, her Majesty: **Music!** - concentrated magic, this wondrous torrent of vibrating energy ...

Unfortunately, the monotheistic crusades (*driven by the transhumanists master-race ideology, governed by a genocidal E.T. father god somewhere in the sky*) slaughtered the true, visionary core of humanity- sealed in blood, with the brutal murder of Hypatia 400 C.E.. (*the dead sea scrolls were released from the vatican in 1991, through Robert Eisenmans efforts, and clearly depict a **master race ideology, full of brutality and genocidal ideas** - they even contain instructions for fractional reserve banking in a spiritual mode*)

The gnostics derived the name for the wisdom of earth from philo (*love*) sophia (*wisdom*), the love of wisdom!

*„The most beautiful story on earth is the story about the earth, the sentient and intelligent mother planet. It can be called a vision story, not to be mistaken for a fantasy trip or a grandiose game of pretending. In fact, the Home Story totally demolishes the narcissistic claim that we are gods. Sophianic myth is light-years beyond New Age make-believe and is, in fact, the perfect antidote to it. The Home Story is a “meta-*

narrative” that you test and verify at every point of engagement with it.“ (John Lamb Lash)

---

This is not merely an outlandish expedition into the realm of assumptions. On the contrary, such insights have been qualitatively verified. The insights of entheogenic journeys have been corroborated for thousands of years, the knowledge stored in the great library of Alexandria- qualitatively explored through the science of spirituality, that the gnostics practiced, before the most vile holocaust of human history befell their high culture of mutual respect and harmony within nature.

And here we are now - 2-6Gzombiwified, mumbling auto tuned, half witted parental advisory rap, ready for **6g LoPAN BRAININTERFACES**.

Would you **awaken** from such Wanton Slumber, once and for all?

- 6 In the scientific literature, this behaviour or quasi-directed movement of particles, in the context of the construction of micro- and nano-objects and electronic devices in a nano-network for intracorporeal communications, was highly likely to correspond to a self-assembly process based on DNA, epitaxial growth and origami. This deduction made it possible to locate the scientific articulation that, with a high probability, could confirm the self-assembly of complex objects, including circuits, cards, routers, sensors and other micro/nano-electronic components and devices. This discovery explains how the components responsible for the Bluetooth MAC address broadcasting phenomenon self-assemble (Sarlangue, G.; Devilleger, J.; Trillaud, P.; Fouchet, S.; Taillason, L.; Catteau, G. 2021). This would also explain the assembly of nanodevices, nanosensors, nanonodes, micro/nano-interfaces, micro/nano-routers, micro/nano-antennas, micro/nano-rectennas, with which the hardware of the intra-corporeal nanocommunications network is configured. (Mik Andersen)
- 7 Regarding the possibility of developing electronic circuits and devices, there is an abundant scientific literature demonstrating the direct implication of self-assembled DNA to create computer systems and nanotechnologies, also by means of DNA crystals. An example of this can be found in the article by (Jackson, T.; Fitzgerald, R.; Miller, D.K.; Khisamutdinov, E.F. 2021) which literally explains the following: *«The integration of advances in nucleic acid nanotechnology and nucleic acid aptamer technologies enables the construction of novel nanoparticles that perform intermediate functions between electronic computers and biological systems. Programming with biological molecules, especially nucleic acids (NAs), is becoming very attractive because of their potential for functions ranging from simple fluorescence emission to sophisticated in vivo gene regulation. The structural behavior encompassed by their sequences can be predicted and manipulated by 2D folding algorithms. The resulting nucleic acid biopolymers can be used as logic-driven nanoagents for specific biomedical applications. Fluorogenic RNA aptamers can be designed to function as a single circuit within individual binary logic gates. This demonstrates the great potential of nucleic acid nanotechnology and promises to develop cutting-edge technologies, especially if combined synergistically with other computing and nanorobotic systems.»*

More importantly, the scientific research confirms that the devices could be designed for “signal transduction and processing” which overlaps with the tasks performed by routers, transducers, transducers, controllers, explicitly mentioned in the context of the intracorporeal wireless nanocommunications network. Indeed, Jackson and his

team state that «DNA nanotechnology could provide a simple approach **to modularly design user-friendly interfaces for signal input/output, in which all transduction, information processing and signal generation tasks are performed by DNA/RNA circuit elements.** First, because many DNA nanostructures are easily internalized by living cells and possess numerous binding sites, **they can be used as multifunctional vectors to deliver regulatory proteins and DNA/RNA circuitry to living organisms.** In addition, these complexes can be guided to specific organelles or organs using small ligands, aptamers, or peptide signals preloaded onto DNA nanostructures. These systems would enable the design of a universal system **to deliver genetic instructions to the cell using modules based on DNA nanostructures.** Second, dynamic DNA nanostructures incorporating FNAs (functional nucleic acids) offer great flexibility in the design of signal transducers due to the availability of a wide range of FNAs identified by SELEX (Systematic Ligand Evolution by Exponential Enrichment) or extracted from natural genomes. **These transducers can specifically transform an input signal into digital binary states (On 1/Off 0) by structural switching.** Regulatory biomolecules released during structural switching can be relayed and reconfigured to intracellular signaling pathways or circuits. Third, DNA/RNA circuits **can act directly on nucleic acids produced during input signal transduction to process information and make logical decisions.** Fourth, once signals have been processed, DNA/RNA **can be used to generate output signals that are transmitted to an external observer in other cells.»**

8 From Greek archai, "origins, beginning things, prior in time."

In the classical Mediterranean world, archon was commonly used for the governor of a province, or, more loosely, any religious or governmental authority. Hence the plural, Archons, is often translated in Gnostic texts as "the Authorities." (There is no Coptic word for Archon, so Gnostic texts use the Greek term in Coptic transliteration.)

Pronounced Ar-kon. Adjective, Archontic (Ar-KON-tik).

In my usual habit of attempting the impossible, I propose three definitions, or three levels of definition:

Level One: Cosmological

In Gnostic cosmology, Archons are a species of inorganic beings that emerged in the solar system prior to the formation of the earth. They are cyborgs inhabiting the planetary system (exclusive of the earth, sun and moon), which is described as a virtual world (stereoma) they construct by imitating the geometric forms emanated from the Pleroma, the realm of the Generators, the Cosmic Gods.

The Archons are a genuine species with their own proper habitat, and may even be considered to be god-like, but they lack intentionality (ennoia: self-directive capacity), and they have a nasty tendency to stray from their boundaries and intrude on the human realm. Archons are said to feel intense envy toward humanity because we possess the intentionality they lack.

The Gaia Mythos describes how the Archons were produced by fractal impact in the dense elementary field arrays (dema) of the galactic limbs, when the Aeon Sophia plunged unilaterally from the galactic core. See especially Episode 10. This event is also described in detail in Alien Dreaming.

Level Two: Noetic-Psychological

In Gnostic psychology, the noetic science of the Mystery Schools, Archons are an alien force that intrudes subliminally upon the human mind and deviates our intelligence away from its proper and sane applications. They are not what makes us act inhumanely, for we all have the potential to go against our innate humanity,

violating the truth in our hearts, but they make us play out inhumane behavior to weird and violent extremes.

Left to our own devices, we would sometimes act inhumanely and then correct it, contain the aberration. Obviously, we do not always do so. In the exaggeration of our insane and inhumane tendencies, and in extreme, uncorrected deviance from our innate intelligence, Gnostics saw the signature of an alien species that piggy-backs on the worst human failings.

Hence, Archons are psycho-spiritual parasites. Yet as offspring of the Aeon Sophia, they are also our cosmic kin.

As inorganic entities of two types, embryonic and reptilian, Archons can at moments penetrate the terrestrial atmosphere and terrorize humans, although there is no reason or order to these forays, for the aliens cannot remain for very long in the biosphere and, anyway, they have no master plan to accomplish here.

The ontological status of the Archons is dual: they exist both as an alien species independent of humankind, and as a presence in our minds, rather like a set of programs operating in our mental environment. The risk they pose by invading our mental software is far greater than any physical risk they might pose by erratically breaching the biosphere.

Working through telepathy and suggestion, the Archons attempt to deviate us from our proper course of evolution. Their most successful technique is to use **religious ideology** to insinuate their way of thinking and, in effect, substitute their mind-set for ours.

According to the Gnostics, Judeo-Christian salvationism is the primary ploy of the Archons, an alien implant.

Our capacity to discern alien forces working in our minds is crucial to survival and co-evolution with Gaia who, as Sophia, accidentally produced the Archons in the first place.

(This comment belongs to Level One, the cosmological definition, but as so often happens with Gnostic teachings, noetic and cosmic elements tend to merge.)

By recognizing and repelling the Archons, we claim our power, define our boundaries in the cosmic framework, and establish our purpose relative to Gaia, the indwelling intelligence of the planet.

### Level Three: Sociological

In the Gnostic view of human society, the Archons are alien forces that act through authoritarian systems, including belief-systems, in ways that cause human beings to turn against their innate potential and violate the symbiosis of nature.

LIVE spelled backwards is EVIL, but the Archons are not evil in the sense that they possess autonomous powers of destruction, able to be applied directly upon humanity.

They are agents of error rather than evil - but human error, when it goes uncorrected and runs beyond the scale of correction, **turns into evil** and works against the universal plan of life. Gnostics taught that the Archons exploit our tendency to let our mistakes go uncorrected.

Because the Archons need human complicity to gain power over humankind, any one who assists them can be considered a kind of Archon, an accessory. How do humans assist the Archons? One way (suggested in the Level Two definition) is by accepting the mental programs of the Archons - that is, adopting the alien intelligence as if it were human-based - and implementing those programs by actually enforcing them in society. Another way is by actively or passively conforming to the agendas so proposed and imposed.

**Jacques Lacarriere suggests that Gnostics detected the humanized face of the Archons in all authoritarian structures and systems that deny authenticity and self-determination to the individual. He argues that Gnostics recognized,**

***"the fundamentally corrupt character of all human enterprises and institutions: time, history, powers, states, religions, races, nations..."***

(The Gnostics, p. 24)

Corruption occurs, not because we make errors, but because the errors we make go uncorrected and extrapolate beyond the scale of correction. Lacarriere says that Gnostics reached this conclusion,

“out of rational observation of the natural world and human behavior.”

Ultimately, they asserted the,

“contention that all power – whatever kind it may be – is a source of alienation... All institutions, laws, religions, churches and powers are nothing but a sham and a trap, the perpetuation of an age-old deception.”

(p. 28-29)

This may seem like a dark view of human affairs, but given the evidence of history (not to mention current events), it cannot be said to be unfair or exaggerated.. (**John Lamb Lash**)

- 2 The Archons may be regarded as progeny of Sophia, but not in the same sense as species born and sustained in Gaia's womb, the terrestrial biosphere. In fact, they are called Archons (from the Greek *archai*, "primordial, first, antecedent in time") because they arise in the planetary system before Earth was formed into a habitat for life. Sophia's unilateral Dreaming produced a power surge from the cosmic center, and the Goddess, shooting forth like a torrential current, impacted the inert fields of primordial matter in an unusual way. Gnostic texts use the term "aborted fetus" to describe the results of this impact..

"A veil exists between the world above, and the realms that are below; and shadow came into being beneath the veil. Some of the shadow became matter, and was projected apart. And what Sophia created became a product in the matter, like an aborted fetus.

(The Hypostasis of the Archons, 94: 5 - 15)"

To the Coco de Mer icon we can now add a graphic variation to suggest how the Archons emerge from Sophia's Dreaming, like a leak from a placenta. As explained in the preceding essay of this trilogy, the Coco de Mer with cosmic detailing represents the "trimorphic protennoia," the original three-body world of Sophia's Dreaming. Our world, the terrestrial biosphere coupled with the sun and the moon, is the manifestation of this Dreaming. With the arising of the Archons, another Dreaming comes into play outside our threefold world order. I propose to call this the Alien Dreaming. (This choice of language will become self-evident as we proceed.) This other Dreaming is a spin-off of Sophia's power of emanation, an exotic spill, yet it does not impede or arrest Her original Dreaming.

The Gaia Mythos describes how the impact of the Aeon Sophia upon the density of atomic matter produced a massive fracture, like the shatter pattern on an ice pond. The pattern has a center where Sophia is located (identified by the Mandelbrot Set), and a spider-web extension of fracture lines that run in all directions (the frozen sea of fractal waves). Episode 9 describes how Sophia, situated in the center of the impact zone, sees around Her something like a sea of tensile waves, and riding the waves, or actually composing the waves they appear to ride, are self-repeating forms that resemble seahorses. These seahorses are similar to the forms that appear at high reiteration of the equation for the Mandelbrot Set. These forms correspond to the anatomical type spontaneously generated from formless atomic matter by Sophia's impact, a type called the "shadow body," haibes in Coptic.

(A word on fractals: Although fractal-like patterns appear in nature (in ferns, for instance: the disposition of the leaves on a stem is repeated in the form of the stemmed branches), the self-similar forms produced by high iteration are not natural, strictly speaking. Fractals such as those pictured here result from feeding a mathematical formula into a computer and having the formula reprocess itself, over and over again. However, the forms so produced do resemble the famous "paisley" seen by many people who took LSD in the 1960s. I would argue, first, that fractals are consistently seen in altered states, and second, that the patterns thus seen may also represent real, though supernatural processes in the cosmos at large.)

The fractal formations described in the Gaia Mythos (Episodes 9 - 10) are actual physical phenomena that occur spontaneously when an Aeon (a mass-free, high-porosity current of stellar plasma) pours into the dense fields of elementary matter. At first these "fractal seahorses" seem to be inanimate structures, rigid and almost crystalline in nature, but by the very fact that Sophia beholds them, they become animated. In the second stage of the unfoldment described in Trimorphic Protennoia, the Aeon Sophia "descends to empower her fallen members by giving them spirit or breath." (NHLE 1996, p. 511) Thus the tensile forms morph from semi-rigid seahorses into rounded fetal forms with tails, but the tails, it seems, keep falling off and turning into other embryos. By this bizarre process of self-repeating generation, the neonate horde of the Archons emerges.

- 11 The hydrogel introduced into the human organism – based on Graphene very often functionalized with chitosan – constitutes a Voodoo substance which is going to replace, inexorably, the true organic and flowing web of Life. The graphene hydrogel is going to zombify, to vampirise, to invade, to clot, to coagulate the human organism. As per the laws of the living Biosphere, the graphene constitutes an alien and “extra-terrestrial” substance in the human organism – and especially so in the brain. Of course, graphene is not the only man-made unnatural substance industrially generated. But today, graphene is the most dangerous for our liberties and for our peace of mind.
- 12 The term "graphene" is derived from the term "graphite" and from the ancient Greek "γράφω/graphô" - which is said to be derived from the PIE "gerb<sup>h</sup>" meaning "to scratch". As for the Greek "graphô", it means to scratch but, also, to draw signs or lines to write, paint, engrave, inscribe or, again, to attack or sue. Graphene oxide is the synthetic mark of the Brand - the magnetising antenna. (Dominique Guillet)
- 13 The water-soluble protein that has been isolated from the Cross-Domain Bacteria (CDB) is anything but a single or simple protein. It is a sophisticated complex that is now known to produce a minimum of 10 variants of growth form. There is already known to be great harm to human existence from the CDB and this particular protein. This work clearly confirms the conclusion that synthetic biology is now fully operative across the planet. The work in progress is detailed, extensive and yet

preliminary – only the highlights of certain topics will be presented to maintain some modicum of the pace of work.

These multiple forms of growth or creation via culturing include, but are not necessarily limited to:

1. **Immature protein crystals of irregular geometry**
2. **Highly developed matured “exotic” biological crystals**
3. **Polymer formation**
4. **Synthetic red blood cells**
5. **Synthetic “blood clotting”**
6. **Budding biological growth (relatively large structures)**
7. **Chain CDB formation**
8. **Protein mass (iron rich complex)**
9. **CDB**
10. **Filament production**

## 15 Irreducible Complexity - the mathematical proof of God

A statistically strong intelligent-like “signal” in the genetic code is then a testable consequence of such scenario. Here we show that the terrestrial code displays a thorough precision-type orderliness matching the criteria to be considered an informational signal. Simple arrangements of the code reveal an ensemble of arithmetical and ideographical patterns of the same symbolic language. Accurate and systematic, these underlying patterns appear as a product of precision logic and nontrivial computing rather than of stochastic processes (the null hypothesis that they are due to chance coupled with presumable evolutionary pathways is rejected with  $P$ -value  $< 10^{-13}$ ). The patterns are profound to the extent that the code mapping itself is uniquely deduced from their algebraic representation. **The signal displays readily recognizable hallmarks of artificiality, among which are the symbol of zero, the privileged decimal syntax and semantical symmetries.** Besides, extraction of the signal involves logically straightforward but abstract operations, making the patterns essentially irreducible to any natural origin. Plausible ways of embedding the signal into the code and possible interpretation of its content are discussed. **Overall, while the code is nearly optimized biologically, its limited capacity is used extremely efficiently to pass non-biological information.**
